PREPARATION: <https://www.silenceofthebees.eu/wp-content/uploads/2022/09/BEESPOKE-Establishing-Perennial-Wildflowers-rev-June-2022-WEB-VERSION.pdf>

Percentage of each species may vary according to seed availability, inclusion of grasses, soil type and climatic conditions.

Speak to a wild seed supplier for advice before ordering.

RECOMMENDED RATE:

1 g/m² or (2 g/m² if financially viable) without grasses
4g/m² with grasses.

IF WITH GRASSES: 10% or 20% grass content recommended but could be higher to cover more area with less costs.
