

# How will model be used?

Paul Y Hamey

## Next steps

- Final report due at end of January
- Will then be subject to review by independent advisors
  - Ministers have asked ACP and COT to re-examine bystander/resident risk assessment approaches
    - Will include both exposure and toxicological aspects
    - Joint working group of the two committees

## Further steps

- UK committed to sharing results with EU
  - EFSA, MS and Commission
- Further work will be required
  - Opportunities for EU funding, work with other authorities e.g. USA EPA?
  - Monitoring of residues in air near commercial applications by Fera
  - Biological monitoring of bystanders and residents
    - 2006 Pilot study on biological monitoring completed by IOM/HSL
    - Plan to commission further study
